Score breakdown

Your accessibility score is a measure of how well your site performs against the automated Siteimprove accessibility checks. Our checks are based on WCAG success criteria categorized by Level A, AA, or AAA conformance levels. Below you can see how well you scored in each category.

A-level

98/100

You have a few Level A errors to fix, but you're on the right track! Then, you can start to focus more on your AA and AAA level errors.

AA-level

100/100

Well done! No Level AA errors were found. You can start working on Level AAA errors.

AAA-level

71/100

You have several Level AAA errors on your page. Level AAA is the highest standard of accessibility, but most user needs can be met at Levels A and AA, so be sure to prioritize those first before tackling Level AAA.

Overview of automated checks completed

We have checked all the different elements on your page, including forms, images, and links. Here you can see how the checks are categorized by "passed" or "failed" occurrences within each conformance level.

	A	AA	AAA	Total
Passed	121	53	38	212
Failed	2	0	10	12
